

Hi Everyone

There has been a number of pedagogic oriented acknowledgments recently and this week's will follow suit and goes to **Laurie Plotnick** for her formative work in the design and implementation of the Faculty's "new" medical school curriculum that gets rolled out this Fall with the incoming Class of 2017.

There are several obvious fundamental challenges in medical school curriculum; 1) the duration of medical school has remained fixed at 4 years (since before the time of Sir Wiliam!) despite an exponential growth of knowledge related to the practice of medicine, 2) the density of synaptic connectivity in the
