

What is Latent Tuberculosis?

Infection (LTBI)?

Tuberculosis (TB) is a disease caused by a bacteria called *Mycobacte*

What to do if missed a dose?

You should try not to miss any doses.

If you forget to take a dose at the right time, take it as soon as you remember.

If it is nearly time for your next dose, skip the missed dose and take the next dose as usual. Do not take a double dose to make up for the forgotten tablet.

If you forget to take any doses let the doctor or pharmacist know the next time you are at the TB Clinic.
